MEMORANDUM CIRCULAR NO: 2019-10-17-25

TO	: ALL COMPONENT SOCIETIES
DATE	: OCTOBER 17, 2019
SUBJECT	: TAKEDA SCIENCE FOUNDATION SCHOLARSHIP

Greetings from the Philippine Medical Association!

The PMA is pleased to have entered into a partnership with the Takeda Science Foundation (TFS), an entity run and operated independently from Takeda Pharmaceutical Company Limited and authorized as Public Interest Incorporated Foundations, under laws of Japan, and provides opportunities for advanced bioscience research works and training to medical doctors and researchers from various countries, including the Philippines, by having them attend leading institutions in Japan.

Since 1963, the TFS has provided financial support to more than 150 Filipino physicians and scientists to undergo postgraduate fellowship training in their chosen field of discipline. TFS wishes to continue and expand this capacity-building initiative by linking it to efforts being undertaken by health professional organizations in the Philippines, thru the administrative support of the Philippine Medical Association.

We invite you to apply for this worthwhile opportunity as the Board of Governors and the National Officers encourage continuing education and training for competency among our members, in collaboration with other esteemed organizations.
